
SUPPORT GROUPS

You will find insight and more effective coping skills, and learn to reduce the unreasonable stigma around mental illness. Additionally, support groups provide a place to network with other persons about how they have solved problems and found help.

Support Groups are led by NAMI-certified individuals with a lived experience in recovery as a family member or individual with lived experience of mental illness

***Not a NAMI-certified group**

You will find a group of people with similar life experiences that you will listen to and learn from; so you can apply and relate to your own life.

Together we explore topics related to a healthy lifestyle and changes one can make.
